

**Do you make paper ornaments and are looking for some unique designs?**

# Paper Ornaments

## Easy and Elegant

Do you love making paper crafts? I know I do and these paper ornaments are perfect for the whole family to make!

Use your [Cricut](#) to cut that perfect ornament piece!

For this project I made 4 different designs you can use and they are ready for you to cut. All you need to do is go to my [resource library](#) and download the templates (zip file asset #286).

The paper spinning ornaments just need some glue and ribbon to put them together. You can do this craft in under 15 minutes!

For special fonts (you can some of these for FREE)

Here's my suggestions for making layered tile ornaments in many different shapes! This post does contain some affiliate links for your convenience (which means if you make a purchase after clicking a link I will earn a small commission but it won't cost you a penny more)! Read my full [disclosure policy](#).

## Materials for Paper Tile Ornaments

- ✓ [Cricut Maker or Explore with Standard Grip Mat](#)
- ✓ Card stock - you can get some amazing designs [here](#) (I used the plain ones for this project but the Christmas papers are also perfect).
- ✓ You can use some glue runner tape such as this [Tombow](#) one (this is the one I use all the time). I like the runner tape for these types of projects but if you prefer you can use thin foam pads. [Adhesive foam squares](#) can be purchased here.
- ✓ Ribbon - Dollar store ribbon works well and a thin one such as this [craft ribbon](#) is perfect.
- ✓ Template from my [resource library](#) (zip file asset #286).

# Paper Spinning Ornaments Step-by-Step Guide

## Step One - Template

Download the tile ornament template from my [resource library](#) - look for resource #286 Spinning Ornaments

There are 4 different designs in the template folder. We will be making all 4.

## Step Two - Prepare Your Tiles in Design Space

The templates give you four (4) options to use for your ornaments, For this project, we will make all 4 different designs so you will be able to apply the same skills to the remainder of the templates. Each of the designs has a total of 4 duplicates.

You can add any text you wish if you are going to use plain colors. This will give your ornament some extra appeal.

### Making Crisp Folds

### Step Three - Assembling Your Paper Spinning Ornament

Once all of your pieces are cut (you can cut these by hand if you do not have a cutting machine), it is time to start putting all the pieces together.

Begin by crisply folding all the score lines down the center.

Stack the pieces together to make sure they line up - you will need to eyeball the fit so that the designs are perfectly centered.

### Applying the Glue

### Step Four - Using the Glue Runner or Tacky Glue

Start with the first piece of your ornament and add your runner tape to the center seam only - you can also add more to the rest of the folded side, if you wish.

Line the next piece up to the one with the runner tape and make sure it fits into place before pressing it down on the first piece. Continue adding all the pieces so you have a stack of 5 all put together.

Add the runner tape to the stop piece in the stack and attach it to the first piece (you will fold it around to the back to form the ornament). Repeat these steps to put all the ornaments together.

### Step Five - Adding the Ribbon

Fold your ribbon in half and glue the open end together (on the inside)

I suggest measuring out 24".

Glue the ribbon in the center of the ornament by pulling the top apart and inserting the ribbon. You can use your runner tape or other glue to secure the ribbon in place. and center.

Your ornament is now ready to hang!

How to

## SPINNING PAPER ORNAMENTS

# Last Word

How many of these gorgeous ornaments are you going to make?

There is nothing like decorating your home with things you make for yourself and these tile ornaments made of paper make it easy to hang them anywhere you wish. Just imagine all the places (including your tree) where you can hang these cute ornaments. If you add a protective covering to them, you can also hang them outside.

I loved making these ornaments and will be making more for this year's holiday celebrations!

If you made an ornament, please share it on our Facebook group.
