Valentine's Day Tea Towel Step-by-Step Guide

Step One - Download the Template

To start you will want to download the template (asset #308) from my [resource library](#).

Unzip the file and upload the SVG files only to Cricut Design Space

Step Two - Design Space Changes

For this make, it is a matter of making sure you have enough of the banner hearts to string across your wall.

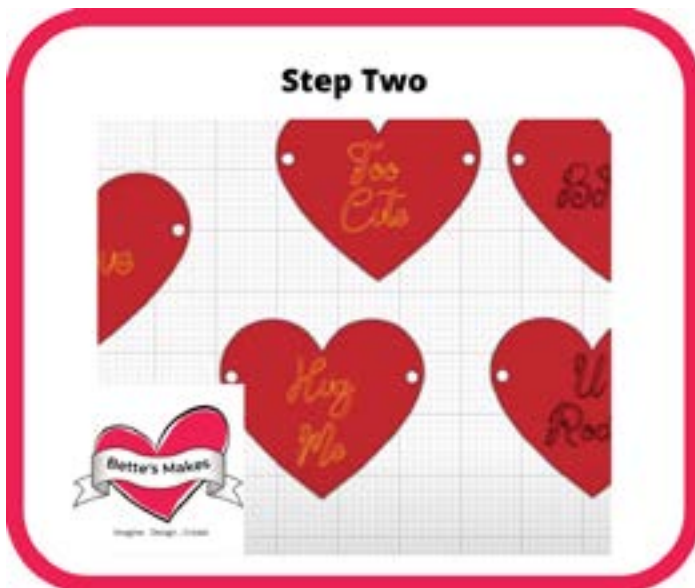

All you need to do is duplicate several to make it longer.

Click on Make It!

Sort your hearts into areas of the mat so you can use more than one color of cardstock.

For the card, choose a double sided cardstock for maximum effect.

Cut the design.

Step Three - Assembly

Assembly for this project is very easy. You want to cut 12" or longer strips of ribbon to tie the hearts together.

You will need a strip for each of the panels.

For the ends, you will want to cut a 2 or 3 foot piece of ribbon and then slit just one end about 2" long.

This is so that you can tie the split end to the last heart in the row and have a long end to attach to your wall.

Do the same for the other end of your banner.

Step Four - The Finishing Touches

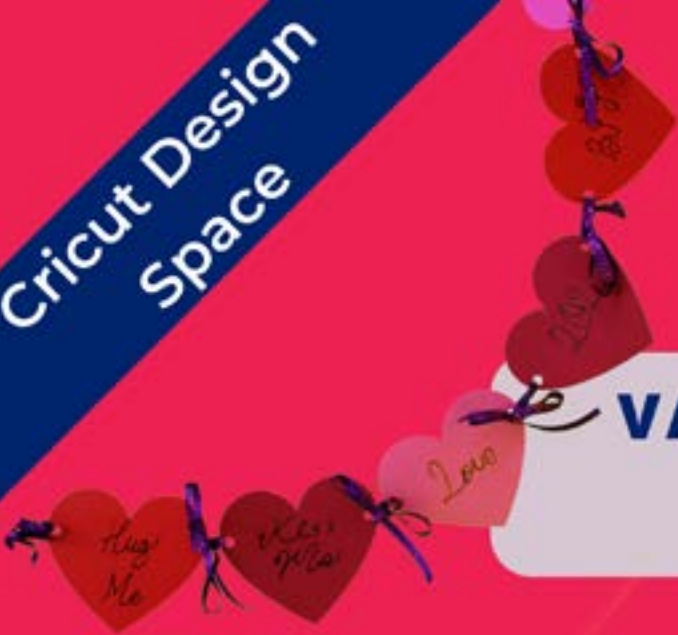

Add any extra sayings you wish on the banner panels. You can even add more embellishments (decorations) to make this banner even more special.

Last Word

This Valentine's Day Banner was a lot of fun to make, and it was dead easy! The best part was the fact that you can use up a lot of your scrap paper to make these banners! Who says it needs to be red and pink anyway!

I hope you enjoyed this project as much as I did.
