

Valentine's Day Cake Toppers! Beginner-Friendly

Easy Make Valentine's Day Cake Toppers

So simple to make when you use your [Cricut](#)! You can even add your own sayings! Cake toppers always add a lot to your table decor - especially when you personalize each and every one of them. These are a very beginner-friendly make and it does not take a lot of time to put them together. You can even use some of your cardstock scraps to cut the hearts or circles.

All the materials can be items you already have on hand. You will also find the template already to go in my [resource library](#) (asset #310)

Here's what you need to make your Valentine's Day Cake Toppers. This post does contain some affiliate links for your convenience (which means if you make a purchase after clicking a link I will earn a small commission but it won't cost you a penny more)! Read my full [disclosure policy](#).

Valentine's Day Cake Toppers Materials

- ✓ [Cricut Maker or Explore with Standard Grip Mat](#)
- ✓ Cardstock in Valentine's Day colors. You can use your scraps as well.
- ✓ Cricut Pen for writing the greetings
- ✓ Dowels (1/8" is best) - 6 to 8 inches in length
- ✓ Weeding Tools including scissors
- ✓ Glue or double-sided tape to hold dowels in place
- ✓ Template from my resource library - Asset #310

Valentine's Day Cake Toppers Step-by-Step Guide

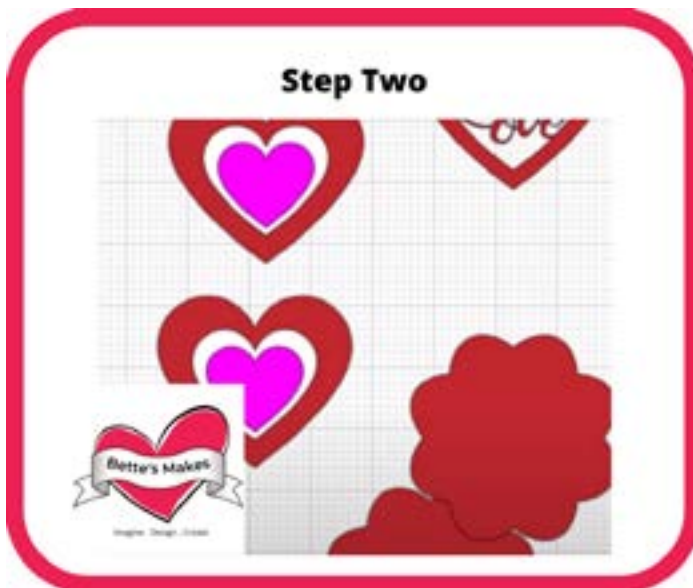

Step One - Download the Template

To start you will want to download the template (asset #310) from my [resource library](#).

Unzip the file and upload the SVG files only to Cricut Design Space

Step Two - Design Space Changes

Your biggest decision in Design Space will be to decide which cake toppers you want to use and delete the rest.

If you are making double-sided toppers, you will need to duplicate the toppers as well

Don't forget if there is writing on the topper, you will need to select the topper and the writing and attach them so they do not move when you are making these.

Duplicate and attach as many cake toppers as you need.

Save your project and then click on Make It.

You can adjust your mat configurations so you can use different colored paper for each topper. Just rearrange the toppers to suit your own needs, then select your material and cut the toppers.

Step Three - Assembly

Once everything is cut, you will want to pair up the pieces so you can put them together.

For each pair, tape or glue down the dowel to the backside of one piece.

Match up the pieces so the dowel is hidden inside and only sticks out on the bottom (you will use this to stand the topper in the cake).

With everything matched up, carefully glue the backside of each piece together to finish off your topper.

Continue doing this until you have matched and glued dowels into each of your toppers.

The Finishing Touches

If you are like me, I did not have a cake ready but I found a big cookie and stuck the dowels into the one cookie so I could show off the toppers.

You could use styrofoam or other material to stand up your toppers and take a photo.

Share your project in our Facebook group.

Last Word

This Valentine's Day Cake Topper tutorial is very easy to put together, the toughest part is finding the right dowel. I found that I could also use a straw in place of it. There is no strict rule as to what you can use for the stick portion of this make.

I hope you enjoyed this project as much as I did.

If you made any cake toppers, please share it on our Facebook group.
