Elegant and Easy S-Fold Card

Valentine's Day means more card making activities and with home schooling, Valentine exchanges will be a little bit different! Why not send cards to those whom you care about or send them just because. Make one for each member of your family! This S-Fold card is so easy to make and the perfect project for beginners and elegant enough for experienced card makers.

All the materials can be items you already have on hand. You will also find the template already to go in my [resource library](#) (asset #306)

Valentine S-Fold Card Step-by-Step Guide

Step One - Download the Template

To start you will want to download the template (asset #306) from my [resource library](#).

Unzip the file and upload the SVG files only to Cricut Design Space

Step Two - Design Space Changes

Duplicate one of the large red hearts

Decide what colors you want to use for your card, panels, and hearts.

Click on Make It!

Sort your hearts into areas of the mat so you can use more than one color of cardstock.

For the card, choose a double sided cardstock for maximum effect.

Cut the design.

Step Three - Assembly

Score the card and fold it until it makes an S shape.

Glue on the panels to the front surfaces.

Assemble the hearts for the front of the card and then glue the back side to the front part of the card.

Line up your inside heart to match the front and glue in place.

Add the lettering to the inside heart.

Step Four - The Finishing Touches

Add any extra sayings you wish for the inside or outside of the card.

**VALENTINE'S
S-FOLD CARD**

Last Word

This card was a lot of fun to make, it had lots of design elements such as the snowman, greeting and the folding of the card. At first it looks so complicated, but once the steps are broken down, it is very easy to make.

The biggest issue I had was the glue sticking to my hands as I put the pieces together!

I hope you enjoyed this project as much as I did.
