

BettesMakes Weekly Newsletter February 1

February is HERE! Super Bowl Weekend! Lots of parties are going to be happening this weekend. I must admit, I am not a football fan but I do love the Commercial breaks. Because everyone will be so occupied, this week's freebie will keep you entertained! See the end of this newsletter for more details.

This Week's Blog Article - [Paper Weaving](#)

Paper weaving is easy, once you know how - here you can get into the Valentine's mode and start making woven hearts - you can use a variety of materials to increase the ways you can use these gorgeous hearts.

CUT FILES

BTW - if you missed any of these newsletters, the archives are in the [resource library](#) - at the end of the list of files.

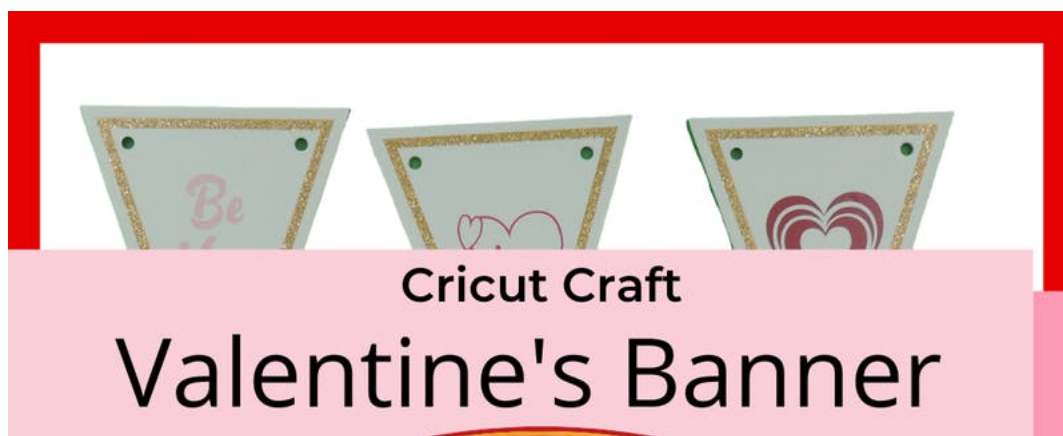

Back to Color Palettes

I have left color palettes behind for a short while and now have come back with a new format to make it easier for you to use the colors from photos. In this new format, there are 3 tones of the same color. One for shadows, the main color, and one for lighter areas. This trio makes it much easier to create your own designs and use colors that work well together. I have reduced the number of colors to 5 and labeled them with hex codes and the color name to make it easier to use. Let me know what you think.

Here is a sample of the first one I have put together.

There is still time to make this one - [Valentines Banner](#)

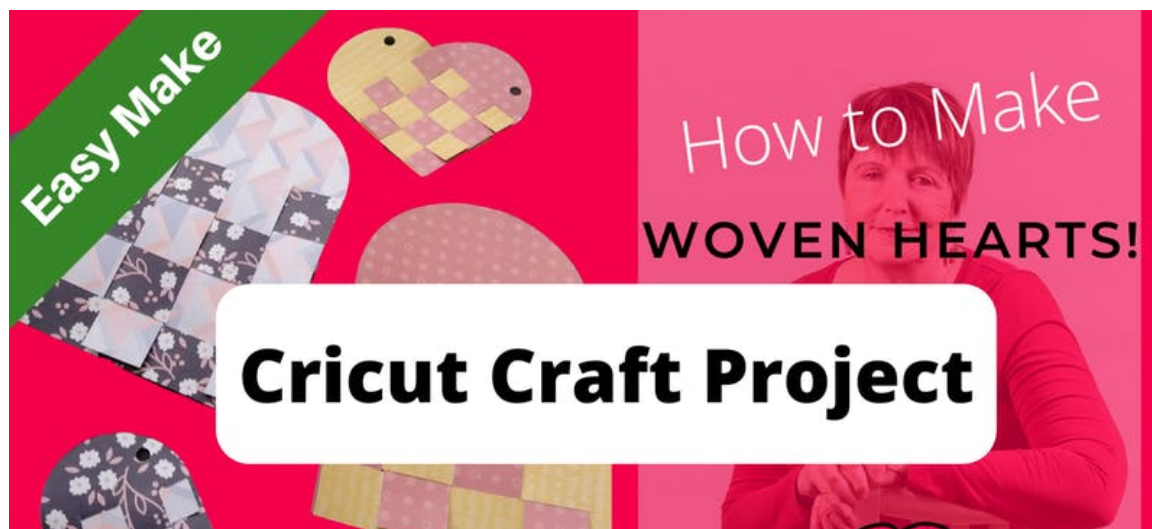

You could even adjust this banner to make it a super bowl banner - all you need is some imagination and a few cut outs to make it work.

Just remember that all of my templates are FREE - nothing to buy! As a subscriber, you have free access to download anything you wish to use in your own projects.

This Week's Freebie!

Wow, here we are, our 5th newsletter in 2020! The Valentine's popup card is finally completed! I have shared the template in my resource library so that you can make your own as well. I had a few issues with actually making the hearts popup but worked on it for a few days and finally came up with a great solution. I do hope you like it and give it a try. Go to my resource library and download

the SVG file and give it a try. The tutorial is not yet posted - Here is a graphic of the score and cut lines you will need to adjust in order to make the card.
