

***Each week, you will receive my newsletter which has a project or two you can make plus a FREE downloadable you will not find in the resource library. This week I have SVGs for Fall!***

***Each September we all gear up for the Fall and the turning leaves remind us of everything homemade.***

### ***Looking to Fall!***

Wow, here it is September!

I love September as the fall colors start to show in the trees and pumpkins are ripening on the vine and the harvest is so close at hand. Just think fresh tomatoes, garden carrots, and plenty of other vegetables! September also brings a fresh look at what we wanted to accomplish this year! For most of us, doing more crafts is definitely on the horizon.

Making home decorations, getting ready for Halloween and Thanksgiving is the perfect thing to do in September. I love making many things but for the fall, home decorations are on top of my list.

This month brings many opportunities to learn even more about working with your [Cricut](#). Make sure you have subscribed to my [YouTube channel](#) for learning even more. My goal is to put up at least one new video each week to help you through the process of learning everything you can do with your machine.

### **Are you into making Cards?**

Spending time looking for card folds, how to make those folds, and gathering them all together can be frustrating to say the least. When I first started out, I spent hours looking for folds or how to create my own! Since then, I have been making my own designs and SVG files for dozens of different folds. Some are

very unique and some are what is popular. Since the search is so frustrating, I decided to create a compendium of folds so that all my folds are in one place. I have almost finished putting this incredible resource together but I do need a little bit of help from you (if you have the time). If you are interested in testing out a few of my designs, click the link below. I will take the first few requests to do the testing, so make sure you apply right away.
