

For the Love of Crafting

Each week, you will receive my newsletter which has a project or two you can make plus a FREE downloadable you will not find in the resource library. This week I have SVGs for Cat Day!

Cat Day is held on October 16th each year and just in time for Halloween!

Looking to Crafting All Day!

I am so excited that my testimonial for a fellow blogger was used! Check this out! <https://www.summerbaystudio.com/shop.html>

Thank you to all for testing my card designs! The finishing touches are in progress from the feedback on changes that need to be made. Watch for the book release in the coming days. I will send you an email with the details later.

Another great Sale from Cricut is going on now and instead of sending a separate email I thought I would give you the link. [CRICUT SALE](#)

Has this ever happened to you?

There is so much going on this September it can make your head spin! Every shop that is now open is having a sale! I went to Michael's the other day to get my new Happy Planner and ended up buying plain color paper packs on sale for under \$5! Just what I needed was more paper but who can resist such a sale? *All that means is that I ended up spending more than I had intended to do.*

This September has been very busy with so many classes, workshops, and new products coming out! There is no slow down in sight as September turns the corner and leads into October with Canadian Thanksgiving and Halloween! Before we all know it, the Holiday Season is upon us. I sure hope that all the fires will be put out, the hurricane season ends, and Covid will be a thing of the past. It certainly has been a stressful year! That is why getting into crafting is so

It certainly has been a successful year. That is why getting into crafting is so important. It is something you can do as long as you are not evacuated from your home. I find crafting is my solace at all times, I hope you find it the same.

This month brings many opportunities to learn even more about working with your [Cricut](#). Make sure you have subscribed to my [YouTube channel](#) for learning even more. My goal is to put up at least one new video each week to help you through the process of learning everything you can do with your machine. I will be adding one on making stickers very soon.

This Week's Blog Article - [The BEST FREE Cricut Fonts and What to do with Them](#)

This article came about because of my students! I thought I would share some of the font issues most people seem to have and a cool solution that will make using your fonts so much easier!

BTW - if you missed any of these newsletters, the archives are in the [resource library](#) - at the end of the list of files.

The FREE Font of the Week

Boogie Woogie Font!

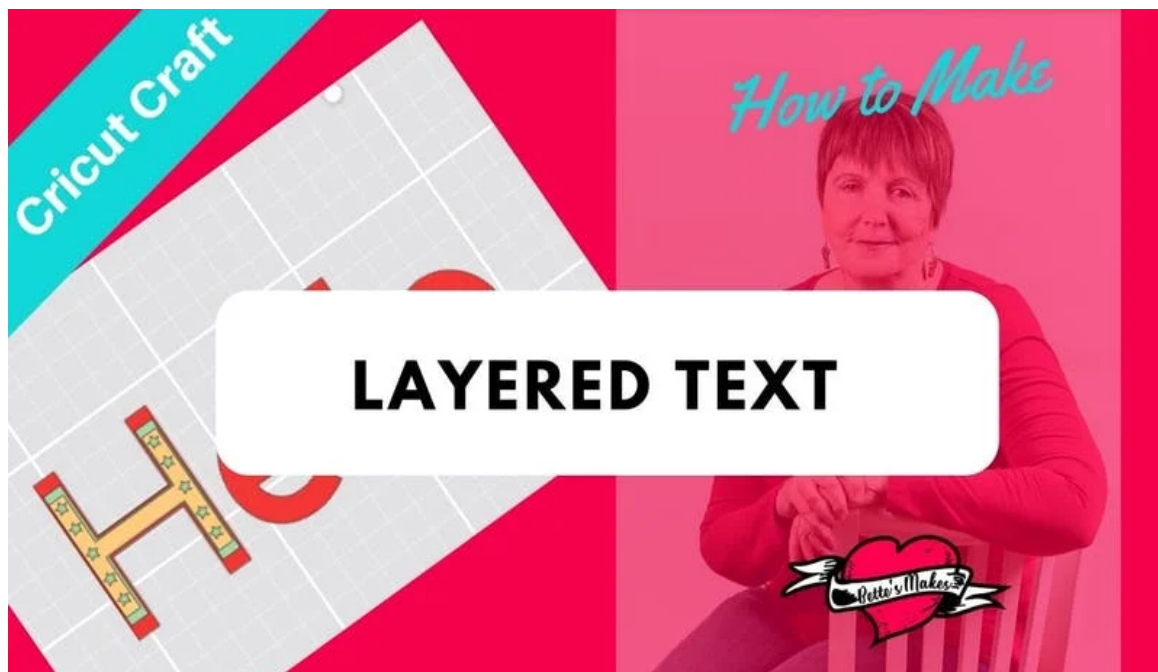

I love this font because it has lots of puffy letters! There are so many things you can do with a font like this! Just imagine making a T-Shirt design with this font! There are not a lot of extras with the font but with the puffy letters, creativity should kick in!

Video of the Week - [How to Layer Text in Cricut Design Space](#)

This is a question that I was asked recently. Layering letters in Cricut Design Space is not always simple but with this technique, you can start layering with

ease! No need to use other software when Cricut Design Space can do this for you. I made this short video just to get you started on your own. The possibilities are endless and this is definitely only the beginning!

Did you Know?

[Cricut](#) offers FREE shipping and 10% off with orders over \$50. Not only that, [Access](#) members get an automatic 10% off plus using this code will give you another 10% plus free shipping. I am all for saving money!
